### **DETAILED ACTION**

#### ***Examiner's Statement Of Reason For Allowance***

1. The following is an examiner's statement of reasons for allowance:

Claims 1-20 are allowed.

Regarding claim 1, the prior art of record does not teach all the combined elements and components for a tone control apparatus for adjusting color tones of a print made by a printing machine, by comparing image data serving as a reference and image data obtained by reading an image on the print, including representative point determining means for determining representative points for the other areas corresponding to the ink keys based on the representative point stored in said set representative point storage means and the setting conditions stored in said setting condition storage means.

Regarding claim 11, the prior art of record does not teach all the combined steps for a representative point determining method for determining representative points to be compared when adjusting color tones of a print made by a printing machine, by comparing image data serving as a reference and image data obtained by reading an image on the print, including a representative point determining step for determining representative points for other areas corresponding to the ink keys based on the representative point set by said operator and by using setting conditions for setting representative points to said other areas.

*Conclusion*

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art of record does not teach all the combined elements, components and steps as discussed above in the "examiner's statement of reasons for allowance".
